Subject: FW: Pollution Report #1 (Initial) Former Kaiser Smelter - Mobilization & Site Preparation
Attachments: kaisersmelter_polrep_1.pdf; kaisersmelter_polrep_1_IMG_3165.JPG; kaisersmelter_polrep_1_IMG_3089.JPG; kaisersmelter_polrep_1_IMG_3075.JPG

Hello friends-

Attached is a PolRep (Pollution Report) reflecting Week 1 (last week) of site operations at Kaiser. I will be building up my distribution list so this gets sent to this automatically (or until you tell "no more!"). I expect these to come out every week to two weeks as the project unfolds.

Getting on site and beginning work has been intense but great to finally see some action. The first two weeks on site have gone well. Lots to focus on from physical safety issues as well as COVID protocols but we're seeing good practices being carried out throughout the team.

This first report is more background than operations and progress. In the future it will be less background and more on progress.

Be well and thanks again for all your partnership getting us to this point.
